

QUALITY MANAGEMENT CONSULTANTS

PQM's core business is Quality Management Consulting. Our mindset is "Do it Right the First Time." We specialize in developing, implementing, and monitoring complete Quality Management Programs for major Capital Improvement Programs and Mega Projects. Our services include Design and Construction Quality Management, Quality Assurance Training, Document Control, Performance Metrics and Statistical Analysis, and Design and Construction Audits. We have provided Design and Construction Quality Management for several of California's most significant projects, as well as conducted performance and technical audits for major highway and rail transit projects, ensuring FHWA and FTA compliance. Public agencies we serve include OCTA, LA Metro, Metrolink, RCTC, SANDAG, SBCTA, Caltrans, and Port of Long Beach. PQM is a certified SBE & DBE in the state of California.
